journey, fortnight, spirit, god, understanding, boland, life, develop, deeper, age, lesson, spiritual realm, reveal, supernatural dimension, gaining, sixth sense, increasing, spiritual journey, visited, indigenous

00:00

Hello, my name is Pastor Ada Boland. I was originally born in St. George, Southwest Queensland. And I am the daughter of Lindsay and Betty Boland. There were seven in our family. And at the age of 15, I had a supernatural dimension or encounter with God. I wasn't brought up in a Christian home. But I had God just visited me, there was something inside of me that just felt as if there was something missing. And I remember getting down on my knees and just saying, God, if you're real, like everybody tells me, you need to reveal yourself to me. And that was the start of a journey of a manifestation of God in my bedroom. But it was the start of a journey, which was a spiritual journey. And I'm thankful that where I am today is a result of God visiting me at the age of 15. And there was a time in my life where I just felt that, that God gave me purpose and direction. And He just fill my life with a love and a peace and a joy. But just this overall, you know, knowing that hey there is a lot more to just the smelling, the hearing, and the seeing and the touching, you know, to our five senses, but hey that there is a sixth sense, and it's called a spirit and my spirit came alive and my life has just always been blessed. And I thank God for where I am today, you know, because of come into a place and coming alive in my spirit. And, and it's been probably the highlight of my life, I welcome you to the journey with me a journey of enlargement, a journey of increasing our understanding and knowledge and gaining some of the know how to live and to walk in the realm of the Spirit, I was already brought up in the realm of the Spirit as an indigenous person of Australia, you know, have an understanding that there was a spiritual dimension. He was just part of our lives, there were things that we smelt, things that we seen, things that were heard and the things that we were told, all related to a spiritual realm. So in this journey together, we will be focusing on four particular key aspects of increasing and knowledge and increasing understanding and gaining more insight to develop your spiritual realm. So first journey and our first teaching will be on Kingdom Living. The second one will be Recognising the Voice of the Spirit. The third one will be the Gift of Prophecy. And the fourth one will be Understanding and Interpretation of Dreams and Visions. I look forward to each session journeying with you as we develop and grow together. And as we share things together. I'd love to once a fortnight just connect with you online, either on Facebook or in a Zoom, you definitely will get my email address. And as you reflect and you meditate on the word and the things that you're learning from your lesson, each week, take time to write down your questions, take time to just think about the things that you're learning. Throughout this training and equipping. Make sure that you take note and when we do gather together once a fortnight, we will be able to not only just develop a relationship with the Holy Spirit, that hey, we're developing our

relationship with each other and getting to know each other. And we know that we will come to a place of gaining a deeper and a more authentic relationship with the Holy Spirit. So as you think about these things, over the next weeks in journeying with each lesson with me, I pray that you will come into a deeper place, a deeper understanding the Bible talks about deep call or thunder deep. There are things the supernatural dimension that God wants to reveal to you. He wants to equip you. He wants to have working of His Spirit to flow through your life. Thank you for your time and I look forward to the days that are ahead in each of our lessons. God bless you.
